

## LGR's Educational Programs

Schools consume large amounts of resources and generate a significant amount of solid waste. Experience shows the potential that schools have to reduce the waste by implementing simple and fun recycling and educational programs.

### Educational programs and recycling incentives for students and faculty

Louie's Recycling Bin

Ladybug Life Cycle Figurines

### Interactive classroom activities available for implementation

Live Butterfly Kits

Green Gardening Activities

### Recycling club initiatives

### Instructional resources

Let's recycle together!
